## Our Objective

The EUROPEAN Seminar is a public information event on security policy issues staged by the Federal Ministry of Defense. It brings together budding young German and European executives from the science community, the business sector and politics in order to give them a better understanding of the objectives of the security policy pursued by the Federal Republic of Germany and Europe as well as of the modern Bundeswehr.

During the nine-day program, the participants experience a dialogue on opportunities, challenges and common values – in spite of different cultural perspectives. The focus of the dialogue is on the common, secure Europe as the unifying theme. In addition to the introduction of the host country Germany, special emphasis is placed on aspects of the evolving security policy and European politics as well as on the progressing European integration.

## What is Offered during the Seminar?

High-level rounds of discussion at the nerve centers of security policy, an international list of speakers and shifting viewpoints all promise a rich and diverse forum for communication and information.

The seminar locations include Bonn, Geilenkirchen, Brunssum, Brussels and Berlin.

The contents of the program may include:

- NATO Headquarter
- AWACS
- Council of the European Union
- Commission of the European Union
- German Bundestag
- Federal Foreign Office
- Federal Ministry of Defense
